

FIGUE 500 | Pendant Lamp

The FIGUE 500 ceiling light can be presented by itself or as part of a composition, depending on the atmosphere and lighting feel you wish to create. This particularly decorative model ensures optimum visual comfort combined with a touch of warmth thanks to the use of birch wood. The wooden slats have been treated with anti-stain and anti-UV protective varnishes in order to ensure they retain their original brightness and colour.

ref. SP-1202-B0010
